Your next project is to recreate a sequence from a film shot by shot. It will be due in class on TBD

You can choose from:

- Opening sequence from Hitchcock's Strangers on a Train
- The shower scene from Psycho

You do not have to start but if you want to get a jump... you must do all of the following

1. Watch the film you are going to recreate.
2. Parse / Annotate the scene shot by shot. Take notes, and/or screenshots
3. Create a storyboard + shooting script.
4. Start shooting
